OPEN ACCESS

Dear Colleagues,

We are pleased to have published the second issue of The New Journal of Urology for 2022. This issue includes 4 original articles, 2 case reports and 2 review. Published articles consist of andrology, endourology, transplantation, general urology, pediatric urology and urooncology. We believe that all the current articles will be read with interest and these articles are expected to contribute to the literature and serve as a reference for future studies.

The New Urology Journal has been indexed in the TÜBİTAK-ULAKBİM TR Index since the first issue of 2011. The indexing process of our journal in ESCI, Pubmed and EMBASE continues. Our goal is to increase the visibility of our journal both nationally and internationally with articles of high scientific quality and to become one of the most read urology journals. We would like to inform you that as of 2021 only articles in English will be considered for publication.

The editorial team is very grateful to all the authors and reviewers who have contributed to this issue. We are aware that this is a painstaking effort, and we cannot thank you enough for it.

We request that you submit your articles to The New Journal of Urology, take timely and rigorous action as a referee, and read the articles published in the journal and cite them where appropriate.

Respectfully yours,

**Ali İhsan TAŞÇI**  
Editor-in-Chief

**Fatih YANARAL**  
Editor
